Bachelors of Science in Computer Science & Engineering, Minor in Studio Art

Graduated June 2016

Skills

- Substantial experience in web development with HTML/CSS, and JavaScript, familiarity with Bootstrap, SASS, JQuery, JSON, PHP, AJAX, and XML, additional development with Ruby on Rails, exposure to AngularJS and ES6
- Experience creating responsive/mobile oriented web pages
- Familiarity with MVC-based web applications and exposure to RESTful web design
- Programming experience in C, C++, and Python, as well as exposure to MATLAB
- Competency using Git for coordinating work within a team
- Experience with SQL databases
- UX/UI design experience with Adobe Photoshop & Illustrator, some work with InDesign and Sketch
- Substantial familiarity with Windows, Mac OS, and Linux
- Extremely quick learner, cooperative worker, detail-oriented, organized, focused, imaginative, strong problem solving abilities, open to new ideas and approaches

Experience **Reflektion**, San Mateo, CA

Deployment Specialist

June 2016 – January 2017

Developed UI for product recommendations and search functionality for client websites using HTML, CSS, and JavaScript/JQuery. Worked with team to address issues on the client side as well as ours. Occasionally made UI mocks for clients (based off their existing sites or their own specifications) using Photoshop and Illustrator.

Organs R Us, San Carlos, CA

Web Design Intern

June 2015 – November 2015

Worked with a group to first establish a wireframe for a general site structure, then applied prototype to develop functional website using a mixture of HTML, CSS, and PHP as well as some frameworks already in place. Also contributed to implementation of a registration feature using the PHP framework Yii and MySQL. Majority of the development was done independently by me.

Santa Clara University Mission Catering, Santa Clara, CA

Student Assistant

June 2013 – June 2016

Worked with other employees and management to set up, serve, and break down catering events. Responsible for making sure that events are set up, and broken down at proper times and in a timely manner. Was also a cashier and worked to handle issues with customers.
